

ICT / COMPUTING SKILLS

Employers in a wide range of industries are vying for college graduates with ICT abilities. Computing Science assists students to acquire more advanced skills and knowledge. It also broadens one's understanding of technology and its understanding. Students learn technical skills such as coding/programming as well as theoretical knowledge of topics such as computer science and web development. Work experience is usually included in ICT courses so that students improve practical skills and make valuable industry connections.

Hello, I am Markandan Maharajan

Entrepreneur, Social Worker and Motivational Speaker

**“There comes a time in life, when you have to decide either to turn
the page or to close the book.”**

To where it all started!

I believe that the world is big and there are extraordinary people out there. My journey started coming to life only after my schooling. The idea of giving back to the society always pushed me to work more towards contributing to the people around me.

With so much good people supporting and guiding all throughout my journey so far, I'm thankful to be what I'm now. As a socially responsible entrepreneur, I'm looking forward to be a part of building a better community.

S. NO.	TITLE OF THE EVENT
1	ICT in Teaching & Learning
2	Artificial Neural Network

POST EVENT REPORT

Department	Electronics and Communication Engineering	
Name of the Event	ICT / Computing Tool	
Title of the Event	ICT in Teaching and Learning	
Date of the Event	18-03-2017	
Venue & Time	SRIET - Seminar Hall	03.00p.m. to 4.30p.m.
Name of the Chief Guest	Dr. P. Sutha	
Designation of the Chief Guest	Assistant Professor, Department of ECE, PSNACET	
No of Participants	70	
Outcome	<p>ICT is a medium for teaching and learning. It is a tool for teaching and learning itself, the medium through which teachers can teach and learners can learn. It removes the traditional method of teaching and prepare teacher to apply modern method of teaching.</p> <ul style="list-style-type: none">▪ To teach students how to use major software packages, these being: spreadsheets; database; word processing; desk top publishing, web design, data logging/computer control and Internet related applications▪ To teach how the use of ICT is regulated in society and the implications of this for the individual▪ To provide access to analytical problem solving skills, empowering the individual to identify a problem, design and create various solutions, and then make a qualitative judgement as to which is the best tool for the job. To invite criticism of our own practice and amend our methods accordingly, in the interest of improving the quality of teaching learning.	
Feedback	Students were happy with this session and found interesting to learn through ICT tools.

Name of the Chief Guest	Dr. R. Rajaram M. Tech.(IIT KGPR), Ph. D	
Designation of the Chief Guest	Thiagarajar College of Engineering, Madurai	
No of Participants	36	
Outcome	This session provides vast information on the network security protocols such as IPSec, SSL and WEP. It also helps to understand vulnerability analysis of network security; to acquire background on hash functions, authentication, firewalls and intrusion detection techniques	
Feedback	Students came to know that In data and telecommunications, cryptography is necessary when communicating over any entrusted medium, which includes just about any network, particularly the Internet. Cryptography, then, not only protects data from theft or alteration, but can also be used for user authentication.
